## The Truth About Alcohol-Based Hand Sanitizers.

- ✗ Not an effective alternative to handwashing
- ✗ Smear dirt and germs on hands, but do not clean
- ✗ Are only effective on hands which are already clean
- ✗ Are both flammable and toxic
- ✗ Can be dangerous to children/infants if consumed
- ✗ Dry and crack hands with persistent use
- ✗ Irritate cuts and scrapes
- ✗ Have a foul odor from heavy concentrations of alcohol (60%+)
- ✗ Stops working after alcohol dries (only 10-15 seconds)
- ✗ Are banned in many school districts
