- ✓ Kleenhanz® is antimicrobial and hypoallergenic.
- ✓ Kleenhanz® leaves hands feeling soft and smooth.
- ✓ Kleenhanz® provides long lasting germ protection.
- ✓ Kleenhanz is non-flammable and non-toxic.
- ✓ Kleenhanz® formula is over 99% water based.
- ✓ Kleenhanz® is **Handwashing On-the-Go.**®
- ✗ Alcohol does not clean hands, it only moves the dirt and grime around.
- ✗ Alcohol is a drying agent, excessive use is bad for your hands. Dry, cracked skin is susceptible to serious infections.
- ✗ Alcohol stings on an open wound.
- ✗ When alcohol dries (in seconds), it's germ killing agents are finished working.
- ✗ Alcohol is toxic, flammable and can be abused by kids.
- ✗ Alcohol based hand sanitizers are being banned by more and more public school systems.
- ✗ Alcohol based hand sanitizers are meant to be used on hands that have already been properly washed and dried.

Winner!
